Message From

CHAIRPERSON

Aalim Muhammed Salegh College of Engineering was started with a dream to serve the society with quality education irrespective of Class, colour and creed with one objective 'Make India Educated'. Education plays a prominent role in a man's life that remains indelible forever. Knowledge is an asset that can be gained only through quality education. Our institution continuously strives to cater to the needs of the society in the field of Science and technology. I take immense pleasure in stating that this institution is one among many that contributes a lot to the development of the developing India. We uphold our nation's pride by expanding our horizons by being inventive, creative and innovative. As I look ahead, I can visualize that the college will grow in pursuit of higher standards of teaching, research, and give shape to the dreams of the founder. My blessings and good wishes will always be with the college. May God give strength to continue to see this college flourishing.

Message From **VICE-CHAIRPERSON**

I take this opportunity to reminisce over the fifteen glorious years of our engineering college's existence and growth, my heart fills with love, admiration and pride for the fertile soil which the college provides to the 17 years old, who enter its portals as secondary students, to leave as responsible human beings. From the aspect of infrastructure to the delivery of knowledge our college now makes excellent facilities available to its students in impressive forms. We have had very good results so far, our past students have done well in life. We have had full cooperation from the parents, teachers, staff and administration. Other educational institutions look up to us for leadership in the field of education and innovative approaches to teaching and guidance of the students.

Message From **SECRETARY**

We are all proud that Aalim Muhammed Salegh College of Engineering has completed 15 academic years and has enriched the lives and lifestyles of more than ten thousand students and staff . We can humbly claim to have added professionalism to impart knowledge in these years and will continue to do so in the years ahead. It is quite inspiring to watch and witness the potentiality of our students unfolding at various stages and situations each day. Trying and testing times during the hectic semester system have elicited our students to put forth their best. The management, administration and the faculty members have been supportive of the various activities that were undertaken by the students in view of helping them reach the summit of perfection and professionalism in whatever task they took on. Thus strengthening our journey of achieving excellence, I take this opportunity to congratulate the principal **Prof. Dr.M.Afzal Ali Baig** and **his team of committed staff members** for their commitment towards value based quality teaching and unstinted efforts put in to ensure that each student is cared for in the college.

Message From

PRINCIPAL'S DESK

Many people feel as if they're adrift in the world. They work hard, but they don't seem to get anywhere worthwhile. A key reason that they feel this way is that they haven't spent enough time thinking about what they want from life, and haven't set themselves formal goals. After all, would one set out on a major journey with no real idea of their destination? Probably not! Goal setting is a powerful process for thinking about one's ideal future, and for motivating oneself to turn one's vision of his / her future into reality. The process of setting goals helps one choose anywhere he/she wants to go in life. By knowing precisely what one wants to achieve, one knows where he/she has to concentrate their efforts.

Steps in setting personal goals

- First, one must create a "BIG PICTURE" of what one wants to do with their life.
- Then, break that big picture into smaller and smaller targets that one must reach in short span of time.
- Finally, once plan is fixed, one must start working towards it.

Goals must have balanced coverage of all important areas of life such as Career, Finance, Education, Family, Art, Attitude, Physique, Pleasure and Public Service.

The academic year 2014-2105 is remarkable with utmost achievements. I wish to congratulate the entire teaching, non-teaching faculty and the students on their commendable achievements. Aalim Muhammed Salegh College of Engineering has a reputation for attracting the best students in their chosen faculty. It is a matter of great pride that the College has made consistent progress, year on year, in academic and co-curricular activities.

The college management and administration is on their heels to turn dreams into realities, imaginations into real incidents and wishes into glowing actions.

I have great pleasure in conveying my best wishes to all of them who have been responsible in bringing out this magazine successfully.

Dr. M. Afzal Ali Baig

Principal

Message From **EDITOR'S DESK**

Dear readers, scholars and colleagues,

The minds, when pricked and praised at the right time will erupt like a volcano where from flows the wonderful literary work. Each individual is an entity of immense potential and creativity which requires proper exploration and channelization.

It gives me immense pleasure to welcome all the readers to explore the events of the past imprinted in this "Nizara Campus Voice – 2015" a yearly magazine of our college.

It adds us a honest pleasure in launching the 10th volume of our college journal named "Nizara Campus Voice- 2015". It is designed to present to its readers the year's events that have gone by, the magazine also showcases the talents of our faculty members and students. With a sense of pride and satisfaction I would like to say that with the active support of the management, faculty and students, NCV has come alive.

A college magazine is a mirror to see the past, to plan the future and to reflect about it in the present. Individuals have a lot of potential within them which needs a proper channelization and outlet and the college magazines are one such outlet that provide these potentials the right platform wherein they can express themselves into a conglomeration. A great journal cannot be made great without a dedicated editorial team of editors and reviewers. Our deep sense of appreciation and thanks are due unto our college management and administration and all the Head of the respective departments and their members for their worthwhile contribution to the magazine.

With all the efforts come true, I truly hope that the pages that follow will make some interesting reading. I congratulate the editorial team for making this magazine innovative and inspiring.

“

FEAUTURES, IMPORTANCE AND SCOPES OF THE DEPARTMENT:

Stepped into the ninth year, the Post Graduate Programme in Management has tailed to develop holistic professional leaders who are equipped to impel business and personal enhancement in an exemplary manner.

The Department has got an objective of enabling building professionals to internalise the body of knowledge in Business Management and emerge out with mastery integrated with social responsibilities and ethical standards. While the MBA Programme provides students with a rich blend of academic excellence, practical insight from industry and technology enabled infrastructure, grooms students with global standards in education that would prepare them to face cross cultural challenges around the world.

The Department has a team of highly qualified, committed and experienced teachers who handle both core and elective subjects. Two senior faculty members are Ph.D. holders and others are pursuing their Ph.D. in various State Universities. The dedicated team of faculty plays an integral role in the realisation of the institution's quest for educational excellence in emerging fields and in making MBA Course - a reputed one in Aalim Muhammed Salegh College of Engineering. A galaxy of eminent guest lectures complements the team with inspiring updates on the latest trends. Regular industrial visits to various sectors of the economy also help in bridging the gap between theory and practice.

FEATURES, IMPORTANCE AND SCOPES OF THE DEPARTMENT

Civil Engineering is a professional engineering discipline and it is the mother branch of engineering that deals with planning, design, construction and maintenance of the physical and naturally built environment, including works such as buildings, roads, dams, runway, harbour, towers, bridges etc. Civil engineering is the oldest engineering discipline after military engineering, and it was defined to distinguish non-military engineering from military engineering. The department provides a learning environment through which students learn the art of development and sustainability.

Engineers Day Celebrations on 15/09/2014

FEATURES, IMPORTANCE AND SCOPES OF THE DEPARTMENT

Ever growing technological innovations have evinced the role of computer systems in many fields. With the significant growth communication technology has necessitated the essential presence of computers in every walk of life. We the members of the faculty have great role in shaping the budding engineers to master technical astuteness. This have been evidenced in the participation of the students in the Nizara Tech-Fest 2014 and also in the technical symposia conducted by various institutions.

The sheer technical competence of the faculties have produced thousands of students with technical relevance have enabled them a place in the IT industries. Learning is a continuous process and does not end with the acquisition of a degree, because steady and rapid advances in computing technologies shorten the life of tools and techniques prevalent today. Therefore we do not aim to make our students walking manuals of any language or package. Instead, they are given a strong foundation in computer science and problem-solving techniques, and are made adaptable to changes. We believe that this approach to teaching-learning, coupled with practical experience gained during the Industrial Training in reputed organizations, equips our students to handle the challenges posed by the software industry. I am confident that you will find our students worthy of your organization.

DEPARTMENT EVENT PHOTOGRAPHS:

Inauguration of Java workshop, Guest Speaker Mr.S Thamaraiselvan, Associate Training Manager, iNautix Technologies with dignitaries on the Dias on 15th September 2014.

Guest Speaker Mr.S Thamaraiselvan, Associate Training Manager, iNautix Technologies, Conducting Java Workshop, Hands on session.

FEATURES, IMPORTANCE AND SCOPES OF THE DEPARTMENT

Electronics and Communication had sprung as a branch of Engineering from the technological advancements in the telegraphic industry in the late 1800s and subsequently had impact from the radio and telephone innovations in 1900s. Since then, there had been enormous and unbelievable technological improvements. This development had revolutionized Electronics and Communication Engineering tremendously and has made a paradigm shift from uncomfortable and restricted wired communication access to comfortable and unlimited wireless communication. The department has consistently maintained an exemplary academic record. The greatest asset of the department is its highly motivated and learned faculty. The available diversity in the expertise of the faculty with the support of the non teaching faculty prepares the students to, become competent in getting employed in global multicultural environment. The graduates of Electronics & Communication Stream have been selected by some of the reputed multi-national corporates. We hope that we will continue to deliver our best to serve the society and mankind . We strongly believe that our students will continue to pass-on the skills and technical know-how to the forthcoming alumni of this alma mater.

RESEARCH AND DEVELOPMENT ACTIVITIES:

- The Department of ECE has been selected for ARM university program and they provided Lab in Box kit for R&D activities.
- Our final year students 1.Mr.Aravinth Kumar.R , 2.Mr. Ajith Kumar.D , 3. Mr.Abdul Baqi.M designed Microwave power meter worth of Rs. 2.05 lakhs.
- Prof.Dr.N.R.Shanker is guiding Ph.D research scholars in Anna University in the following disciplines :
 - Acoustics Ocean sedimentation
 - Radar Image Processing
 - Thermal Imaging
 - VLSI Signal Processing
- In-house wireless communication lab is developed by our own department . Principal invigilator Dr.S.Sheik Aalam Head ECE, Team members Mr.B.Ramesh , Mr.K.Moorthi

Real time application on electronic design automation using VLSI SPARTON6 – Dr.Ragavan IYYAR, CADD Ambathur

One day hands on training for PSPICE

Five days workshop Digital Image Processing using MATLAB

FEATURES, IMPORTANCE AND SCOPES OF THE DEPARTMENT

- To impart training with the best of teaching expertise supported by excellent laboratory infrastructure and exposure to recent trends in the industry. The laboratories are well equipped with modern training facilities that cater to the requirements of the university syllabus as well as to enhance the learning experience.
- Electrical and Electronics Engineering is a diverse discipline that applies the principles of mathematics, physics, and science for the analysis, design, test, manufacture, and maintenance of electrical and electronic systems. Electrical engineers work with other engineers and scientists to develop innovative consumer electronics, sensors and instrumentation, power generation and storage systems and much more. In addition to the underlying principles of electricity and electromagnetics, our curriculum provides you with a solid foundation in problem-solving, analysis, design, project management and preparation for professional licensure.
- To ensure that the students are moulded into competent electrical engineers and worthy citizens of the country. This department plays a vital role in training students of other branches of engineering too. Besides regular classes and lab sessions, the department conducts seminars on emerging technologies regularly thereby ensuring that the students are "Industry Ready". Our department students winning consecutively at various National level competitions in esteemed Universities / Institutes in the field of Robotics, is ample proof of our endeavor to impart an integrated training.

ROBOTICS & ROBOT WARS

FEATURES, IMPORTANCE AND SCOPES OF THE DEPARTMENT

The primary goal of the Department of Information Technology (IT) is to prepare students for both short and long term career success in engineering and technical fields. The main backbone of the course is educating knowledge of Computer and its Engineering. The Bachelor of Technology (B.Tech) in Information Technology is developed specifically for students who desire a strong technical undergraduate education in the field of Information Technology. The course includes computer operations on different languages, data generation and collection and utilization of information. The course imparts all the basics as well as latest knowledge pertaining to the rapidly developing field of computers.

It is our objective that students should be able to pursue advanced studies in Computer Engineering and Information Technology at a global level.

The Department has a good record of organizing seminars, workshops, symposium and conferences in the emerging technological areas. The faculty members in our department are specialized in all the above given fields and related sub fields of information technology.

FEATURES, IMPORTANCE AND SCOPES OF THE DEPARTMENT:

The Department of Mechanical Engineering at Aalim Muhammed Salegh College of Engineering has been transforming generation of budding aspirants into accomplished engineers for business and society in a unique academic setting, which fosters professional excellence and nurtures core values for fulfilling the requirements of life.

This department from the day of its inception, has been taking long strides in the field of science and technology. This is one of the active departments anticipating the rapid developments in technology with sophisticated laboratory facilities excellent infra structure, well qualified and dedicated faculty members from various prestigious institutes of India.

It is a discipline that finds wide scope in emerging areas like CAD, CAM, CIM, Robotics, Mechatronics and Renewable Energy etc. The department organizes workshops, seminars, conferences every year. The students of our Department have good communication and inter personal skills, besides their thoughts and creativity has yielded many state level prizes.

The objective of the Department of Mechanical Engineering is to provide high class education for enabling the students to inculcate the ability in designing, planning and managing the latest technologies in the field of Mechanical Engineering and face the future challenge.

DEPARTMENT OF PHYSICS

The objective of the Department is to impart adequate fundamental knowledge of Physics to engineering students. The department collaborates with technical departments and provides scientific stimuli so as to build solid foundations in new emerging technologies. The department provides good infrastructure, modern equipments, well qualified and dedicated faculty members who are involving themselves in the welfare of the students and ensures good academic performance of the students. The mission and vision of the department is to feed the budding Engineers with finer aspects of science that make them to figure out, explore, innovate and contribute to the technological advancement of tomorrow

DEPARTMENT OF ENGLISH

PROFILE

Welcome to the department of English, as you read through this magazine, I hope you will realize that the faculty members in our department recognizes the central role to play in the technical education, indeed, in the understanding of human life and activity. We are committed to create the most supportive and intellectually stimulating environment for anyone interested in our disciplines. As a department head, I see our mission as providing the best education in the understanding of language and literacy in English language and to applying it at exemplary levels. We believe that the disciplines that embody the Department of English can train students to shape their ideas with a real sense of human consequence. The primary mission of the department is to enhance the creative potential of the students and create an environment where teaching and scholarship complement each other at all levels, besides educating our students to conceptualize and express ideas analytically and creatively. With this mission we march ahead to touch our milestones and excel in our service.

PROFILE

The Mathematics department is an interdisciplinary department and helps all the other departments, as mathematics plays a vital role in all the branches of engineering. Department of Mathematics provides basic foundation to engineering students, through highly qualified faculty members. The department handles Mathematics – I, II, Transforms and Partial Differential Equation, Probability and Random Process, Probability and Queuing theory, Statistics and Numerical Methods for B.E and Applied Mathematics for Electronics Engineers and Operations Research for PG students. The department strives to mould the students to develop the understanding ability of basic mathematics and excel in mathematically oriented thinking and Logical reasoning. It creates awareness of the potentials of mathematics and scope of its application to the diversified areas such as Science, Engineering, Technology, Industries and in Research.

PROFILE

The pedagogical philosophy of the department can be summarized with a belief that the best ways to learn chemistry is to do chemistry. This is one of the dynamic department in science and humanities comprising talented research faculty members who are well-recognized in their fields of inquiry, and pursuing higher studies to upgrade the knowledge in the relevant area. The department caters all the requirements of the curriculum from its sophisticated laboratory having all the necessary equipments. The faculty members ensures students participation and contribution towards a clean and healthy environment with the eco-friendly green technology. The department has its vision to produce quality engineers with high ethical and professional standards for various engineering and allied fields.

FEATURES, IMPORTANCE AND SCOPES OF THE DEPARTMENT

Sports Education along with the academic learning result in mental, moral and physical development of the students. Today's educational system make students mentally depressed and as a consequence budding students suffer with poor physique and weak mind. Hence the academic curriculum includes sports, games and physical health education for over all development of the students. The Mental and moral development is not enough for the young generation. They also require physical development and mental development to prove themselves as a Good Samaritans.

In our esteemed Institution, we give more importance to sports . Our college trains the students in all the sports events, which enables them to not only excel in sports , but also teaches various means to tackle the problems professionally and personally. It is an avenue through which an individual can excel in life by procuring good job through sports quotas. The competent can also procure government jobs.

Mr. G.VINOTH KUMAR,
M.PEd., M.Phil.,
Director of Physical Education

CAREER PLANNING & DEVELOPMENT CELL

Now in the eighth year, the Post Graduate Programme in Management is tailed to Career Planning & Development Cell which was established in the year 2003. CPDC is headed by Prof. R. Ravikumar. He has obtained his Masters degree in Social Work specialized in Personnel Management, Industrial Relations and Labour Welfare from University of Madras. He has also obtained another Masters Degree in Business Administration from REC, Trichy, Bharathidasan University.

He has worked for more than 2 decades in different industry verticals in the fields of sales and marketing, human resources management, training and placements. The industry verticals include software, health care, consumer durables and industrial products marketing, he has expert knowledge in product launching, channel building & development, and recruitment techniques adopted by various software industries in India for fresher's hiring. He has so far successfully completed more than 1000 campus recruitment drives and obtained placements for more 10,000 students in the software & core Manufacturing industries.

Life member of ICSW (Indian Council for Social Welfare).

Prof. R. Ravikumar
CPD CELL

OBJECTIVE:

The aim of Career Planning & Development cell is to provide training to Engineering & Management students from the first year itself and impart various soft skills to enable them to acquire employable skills completely by the third year. Detailed planning is carried out at the beginning of the 7th semester for placements. Spark Infotech, Permit Solutions & E2 Training Consultants were contracted to train the students in quantitative aptitude, reasoning, resume drafting and soft skills for a duration of 36 hours. Meticulous planning is done to enable the students to participate in the recruitment drive organized by CMM level 5 Companies and place them in targeted companies like Infosys, CSC, Polaris, FSS, MRF, TCS, Accenture, Wipro, CTS, Syntel, Axles India, Amalgamation, Airtel, BYD Electronics, Johnson Lifts, Asahi India Glass, ETA ASCON, BOSCH, SHI, Sutherland, Nokia Siemens, Royal Bank of Scotland and India Pistons, Swan Electric, Hanil Auromotin, MS global, Vortex Engineering.

TRAINING THE TRAINER

We have entered into an MOU with Sutherland to impart specific training skills to teachers in our Engg. College & Polytechnic College so that they acquire competencies to train the students in turn for employable skills.

BUSINESS APTITUDE

Analytical Reasoning
Numerical Ability
Problem Solving

Library is regarded as the brain of any institute and in that perspective our Central Library is acting as a knowledge hub to disseminate information pertaining to the different branches of engineering. All students and faculty members are encouraged to make use of the Library resources that has huge collection of books, journals and magazines on engineering, management and science and humanities.

OPAC (ONLINE PUBLIC ACCESS CATALOGUE)

The Library follows Open Access System. The reading materials are arranged into two sections: The General Collections and the Reference Collections. Books are shelved according to call Numbers.

Total Number of Titles : 7500
 Total Number of Volumes : 37000
 No. of National Journals : 101

National Service Scheme was modeled on Swami Vivekananda's ideas of personality development and nation building through selfless service. It inspires the youths of India to become aware of and actively participate in the development issues of this nation, especially its underprivileged sections.

THE MAIN OBJECTIVES OF NSS ARE TO

- Understand the community in which they work.
- Understand themselves in relation to their community identify the needs and problems of the community and involve them in problem-solving.
- Develop among themselves a sense and civic responsibility.
- Utilize their knowledge in finding practical solutions to individual and community problems.
- Develop competence required for group-living and sharing of responsibilities.
- Gain skills in mobilizing community participation; acquire leadership qualities and democratic attitudes.
- Develop capacity to meet emergencies and natural disasters and practice national integration and social harmony.
