Subject: Requisition for inclusion of Value-Added courses for B.E./B.Tech program

Respected Sir/Madam

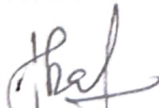

This is brought to your kind notice, we are exploring the introduction of value-added courses for the B.E./B.Tech. program. In the rapidly changing technological environment of today, it is crucial for students to develop skills that extend beyond the primary curriculum in order to remain competitive and prepared for the industry. Value-Added courses present an excellent chance for students to acquire knowledge in cutting-edge technologies, soft skills and professional practices essential for their personal growth and employability. Some of the key areas we would like to propose for inclusion are:

- **Advanced Technologies & Certifications:** (e.g., Artificial Intelligence, Cloud Computing, Data Analytics, Machine Learning)
- **Industry-oriented Skill Development:** (e.g., CAD, Embedded Systems, Automation)
- **Soft Skills Enhancement:** (e.g., Communication, Critical Thinking, Problem Solving, Presentation Skills)
- **Entrepreneurship and Innovation:** (Workshops on startups, business models, innovation processes)
- **Internships and Industry Partnerships:** (Structured programs that bridge the gap between academics and real-world practice)

We believe that a standardized set of value-added courses approved and supported by the university will ensure consistency and quality in enhancing the skills for our students. We would be grateful for your kind consideration and look forward to your positive response.

Thank you for your time and support.

Yours Sincerely,

Dr. Afzal Ali Baig

Subject: Requisition for the implementation of revised syllabus for B.E./B.Tech. program

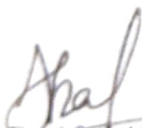

Respected Sir/Madam

This is bring to your kind attention, We have reviewed the B.E./B.Tech curriculum in-depth as part of our continuous efforts to improve education quality and stay up to date with changing industry expectations. We would like to formally request that the updated curriculum be used for the next academic year. The revised syllabus incorporates updated content, emerging technologies, and industry-relevant skills that are crucial for preparing our students for future challenges.

We would be grateful for your kind consideration and look forward to your positive response.

Thank you for your time and support.

Yours Sincerely,

Dr. Afzal Ali Baig

Subject: Request for Promotion of B.E./B.Tech. Students to Next Semester in View of COVID-19 Pandemic

Respected Sir/Madam

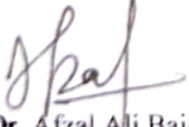

This is bring to your kind attention, I am writing to request your kind consideration regarding the promotion of our B.E. students to the next semester, in light of the ongoing challenges posed by the COVID-19 pandemic. As you are aware, the pandemic has led to significant disruptions in the academic calendar, with the transition to online learning, delayed exams, and limited access to campus resources. Many students have faced difficulties in adapting to this new mode of learning due to connectivity issues, personal health concerns, and other challenges.

I kindly request that the promotion of B.E. students be based on internal assessments, participation in online classes, and overall performance during this period, rather than relying solely on traditional end-of-semester examinations. This will ensure that students can progress without unnecessary academic delays while maintaining fairness and flexibility in the evaluation process.

We would be grateful for your kind consideration and look forward to your positive response.

Thank you for your time and support.

Yours Sincerely,

Dr. Afzal Ali Baig

Subject: Requisition for inclusion of Value-Added courses for B.E./B.Tech program

Respected Sir/Madam

We would like to bring to your attention that we are exploring the possibility of introducing value-added courses to the B.E./B.Tech. program. In today's fast-evolving technological landscape, it is essential for students to acquire skills that go beyond the core curriculum to stay competitive and industry-ready. Value-added courses provide an excellent opportunity for students to gain proficiency in emerging technologies, develop soft skills, and build professional competencies that are vital for their personal growth and employability. We propose the following key areas for inclusion:

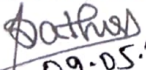

Simulation Laboratory: Inclusion of Simulation laboratory for Mechanical Engineering.

Mini Projects: Incorporating mini projects as part of the syllabus for all departments.

We believe that implementing a standardized set of value-added courses, supported and approved by the university, will ensure consistency and maintain the high quality of skill enhancement for our students. We kindly request your consideration of this proposal and look forward to your positive response.

Thank you for your time and support.

Yours Sincerely,

09-05-2022

Subject: Requisition for inclusion of Value-Added courses for B.E./B.Tech program

Respected Sir/Madam

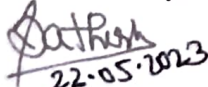

We would like to bring to your attention an initiative aimed at introducing value-added courses within the B.E./B.Tech. program. In today's fast-paced technological world, it is crucial for students to develop skills that complement their core curriculum, ensuring they are well-prepared and competitive in the industry. Value-added courses offer an excellent opportunity for students to gain expertise in emerging technologies, improve soft skills, and acquire professional competencies that contribute to both personal development and employability. We are proposing the inclusion of the following areas:

- **Simulation Laboratory:** A dedicated lab for Mechanical Engineering.
- **Mini Projects:** Incorporating mini projects as part of the curriculum across all departments.
- **Generative AI:** Course on Generative AI can be added for all the departments.

We believe that a university-approved set of value-added courses will provide consistency and enhance the quality of skill development for our students, aligning with industry needs. We kindly request your consideration of this proposal and look forward to your favourable response.

Thank you for your time and support.

Yours Sincerely,

22-05-2023
